

CalCare Teach-in and September Day of Action!

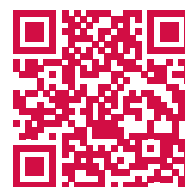

Our health care system is broken. It covers less, provides lower quality care, and costs more than any other health care system on earth. At the same time, hospital, insurance, and pharmaceutical corporations continue to make huge profits at our expense. We have an opportunity to pass transformative legislation in 2024, CalCare, that will guarantee health care to all people in California.

Join us on September 23rd for a teach-in in our community on CalCare. This will be a fun opportunity to meet other CalCare supporters, strengthen relationships with local organizations and unions, and get on the same page about the plan of action over the coming months. This event is one of dozens taking place around the state.

Join us in
the fight for
health justice!

Saturday
September 23
